

Datamastaros Limited

Enterprise AI Engineering for Modern Africa

Company Brief - 2026

Who We Are

Datamastaros is a research-driven AI engineering firm designed to build intelligent infrastructure that African enterprises deserve. We combine deep machine learning research expertise with hands-on enterprise delivery.

What We Do

We design and deploy AI systems across 12+ industries: fintech, healthcare, education, real estate, retail, manufacturing, agriculture, government, logistics, hospitality, energy, and telecom. We deliver custom ML solutions, intelligent platforms, and end-to-end AI infrastructure.

Our Track Record

- AWS-Supported Infrastructure
- Cohere AI Grant Recipient
- 500+ Engineers Trained
- Production AI systems deployed across fintech, telecom, healthcare, real estate

Core Services

1. AI Strategy & Consulting - Architecture planning, roadmaps
2. Machine Learning Solutions - Custom models, MLOps
3. Predictive Analytics - Revenue, risk, demand forecasting
4. Computer Vision - Defect detection, OCR, quality control
5. NLP & Intelligent Chatbots - LLM-powered assistants, African languages
6. Data Engineering - Pipelines, ETL, streaming, warehouses
7. AI Business Automation - Decision automation, RPA, workflows
8. Custom Enterprise AI Platforms - End-to-end bespoke solutions

Our AI-Powered Products

SchoolMind, CliniqAI, ShopIQ, PropFlow, FarmSense, StayOS, LogiTrack, BizPulse
